SERIES 400 SHOPFRONT
101.6 x 45mm, Single Centre Glaze

TECHNICAL BROCHURE 14

KEY FEATURES OF ALUFORM PARTITION SUITES

FLEXIBILITY

Our suites can easily be adapted to any office design simply by cutting the relevant sections to length and snap fitting them together. Minor changes can be made to the design and layout of an office space with minimal cost and time.

EXTENSIVE PRODUCT RANGE

Aluform carries a wide range of suites to suit a variety of applications and architect specifications. To view the complete range of our aluminium partition suites, refer to the “Aluminium Partitioning Quick Reference Guide” at the back of this brochure.

FAST LEAD TIMES AND DELIVERY

At Aluform we understand the importance of deadlines - that is why we strive to maintain high stock levels of each product line in order to prevent delays on your projects. Standard stocked products are dispatched the same or next day. Powdercoated material can be turned around in 4-5 days.

EFFICIENT INSTALLATION

Our suites are designed to snap together, reducing installation time and eliminating further fixings. Being light weight, the lengths of aluminium sections can be cut and machined with ease, reducing risk of injury and contractor frustration.

SUPERIOR QUALITY

Aluform’s partition sections are extruded in accordance with the ISO 9001 quality management system. A sample of each section is inspected after extrusion to ensure it is in accordance with the specifications of the die, and again after anodising or powdercoating to ensure the finish is consistent.

GREEN RATED

Our Reclaim, Remelt, Reuse program uses 100% recycled, remelted aluminium and is accredited for projects which require high green star ratings. Now you can rest at ease in the fact that when an office is refurbished, all the aluminium can be taken down, scrapped, re-melted and extruded again.

COMPETITIVE PRICES

Aluform consistently strives to be a leader in supplying the commercial fitout industry. That is why you can trust us to give you a fair and competitive price.

COMPLEMENTARY PRODUCT RANGE

To complement our aluminium partition suites Aluform’s extensive product range includes:

- Aluminium Entrance and Sliding Doors
- ALU-GLIDE Cavity Sliding Units
- Exposed Ceiling Grid & Tiles
- Plasterboard, MDF & Plywood Sheet
- Timber Partition Doors
- Polyester Acoustic and Thermal Insulation
- Interior Acoustics
- Fasteners
- Commercial Door Hardware
- Partition Suite Accessories.

SERIES 400 SHOPFRONT

45mm Edge Profile | Centre Glaze

Aluform's 101.6 x 45mm single centre glazed shopfront system is ideal for external glazing and is the preferred choice of architects and designers for applications such as shopping centres, offices, show rooms, and commercial buildings. With provision for centre glazing, Series 400 Shopfront is easy to install and creates a sharp, robust appearance. Apt to withstanding harsh weather conditions, the suite includes a self-draining slotted subsill to combat water leakage.

Features:

- 45mm edge profile
- Centre glaze
- Glazing pocket suits 6mm, 8mm, 10mm, or 12mm glass
- Designed to meet AS2047
